

## Construction Update: Steveston Interchange Project

### Traffic Impacts for Pier Piling

October 2023

Starting on November 14, there will be new traffic impacts on Steveston Highway and Highway 99 for approximately two months while pier piling is completed as part of the Steveston Interchange Project.

**Steveston Highway:** there will be a full closure of the northbound loop ramp to Highway 99 for vehicles traveling eastbound on Steveston Highway starting November 14 for approximately two months. Vehicles will instead enter Highway 99 by turning left from Steveston Highway onto the existing northbound on-ramp. The intersection will be temporarily upgraded to accommodate two left-turning lanes during the closure. Motorists are encouraged to consider alternative routes.

**Highway 99:** following the northbound loop ramp closure there will also be a full closure of the

southbound bus-only lane on Highway 99. Buses will reroute via the southbound off-ramp and will maintain service to the Highway 99 southbound transit stop via the transit-only on-ramp.

Pier piling will only take place during the day. Nearby residents and pedestrians will hear noise and feel vibrations in the immediate area where work is taking place. For added safety, there will be intermittent stoppages for pedestrians crossing the Steveston Highway overpass sidewalk.

We understand that this work may be disruptive, and we appreciate your patience while we build the new Steveston Interchange. If you have questions, please email [StevestonProject@flatironcorp.com](mailto:StevestonProject@flatironcorp.com) or call the construction information phone line (24/7) at 1-888-270-1075.
