

Steveston Interchange Project

Overnight Highway 99 Detour on **May 20**

May 2025

UPDATED May 14: Due to equipment issues, the Highway 99 overnight detour originally scheduled for May 15 has been rescheduled to the night of May 20.

Highway 99 northbound and southbound will be closed to traffic overnight starting at 11 p.m. Tuesday, May 20, and concluding the following morning at 5 a.m.

The closure is needed to ensure crews can safely move a crane across Highway 99.

Vehicles will be detoured utilizing the on- and off-ramps along Steveston Highway. The work is being completed overnight to minimize traffic disruptions.

As is currently the case, the Steveston Highway northbound loop ramp onto Highway 99 will remain closed, with traffic rerouted to access the north side on-ramp via left turn lanes.

The new five-lane Steveston Interchange Project is a key part of the Highway 99 Tunnel Program to improve travel along the Highway 99 corridor. As part of the broader Program, the interchange will integrate seamlessly with the new eight-lane, immersed tube tunnel being built under the Fraser River to replace the George Massey Tunnel.

East-west travel on Steveston Highway will be maintained for vehicles, pedestrians, and cyclists. Existing transit stops will be maintained in all directions.

Future crane crossings will be needed as work progresses to complete the Project.

If you have any questions about construction, please email StevestonProject@flatironcorp.com or call the construction information phone line (24/7) at 1-888-270-1075.
