

Steveston Interchange Project

Upcoming Highway 99 Overnight Closure

September 2025

As work progresses toward completion of the new five-lane Steveston Interchange Project, Highway 99 will be closed to traffic **overnight as early as September 14** to allow crews to pour the main-span concrete deck on the Phase 2 structure.

The closure will take place between 10 p.m. and 5.00 a.m. Vehicles travelling on Highway 99 will be detoured using the on- and off-ramps at Steveston Highway.

As is currently the case, the Steveston Highway northbound loop ramp onto Highway 99 will remain closed, with traffic rerouted to access the north side on-ramp via left turn lanes.

The work is being completed overnight to minimize daytime traffic disruptions.

The new five-lane Steveston Interchange Project is a key part of the Highway 99 Tunnel Program to improve travel along the Highway 99 corridor. As part of the broader Program, the interchange will integrate seamlessly with the new eight-lane, immersed tube tunnel being built under the Fraser River to replace the George Massey Tunnel.

If you have any questions about construction, please email StevestonProject@flatironcorp.com or call the construction information phone line (24/7) at 1-888-270-1075.
