Fraser River Tunnel Project

DAILY NAVIGATION NOTIFICATION

November 21, 2025

This Daily Notification provides an update on the status of geotechnical investigation works for the Fraser River Tunnel Project. These daily updates are a supplement to the weekly NAVWARN which should be referred to for further details of the project. Figures are for illustrative purposes only and not to be referenced for navigation purposes.

Summary of Activities:

In-River Test Section (Figure 1):

Today's activities include ground improvement trials using the FRPD GE6 spudded/Derrick barge – **Vessel MMSI (AIS) - 316058929**. The work area is in the main river channels north administrative safety zone. Near the Canfisco property (13140 Rice Mill Road).

Works will occur between **0700 hrs and 1900 hrs**.

Tugboat SEA IMP IX (Catherwood) – **Vessel MMSI (AIS) – 316014646** will be available during and outside of the working hours to assist transiting vessels upon request.

Supplemental Test Dredge (Figure 3-5):

The **Sceptre Columbia – Vessel MMSI (AIS) – 316018772** will be conducting dredging operations. The pipeline is partially submerged past the Deas Basin (BC Ferries) and connect to the Mainland Sand and Gravel pit on No. 5 Road, Richmond. **Dredging has commenced, vessels to observe white buoys indicating location of dredging vessel anchors.**

Works will occur 24-hours per day.

Tugboat SEA IMP IX (Catherwood) – **Vessel MMSI (AIS) – 316014646** will be available during and outside of the working hours to assist transiting vessels upon request.

The FRPD vessel "Centennial Buddy" will be onsite assisting with dredge pipeline setup.

Ladner Reach Geotechnical (Figure 6):

The Mercury Barge MLT-4 – **Vessel MMSI (AIS) - 316056547** will be onsite completing Geotechnical testing in Ladner Reach near Kirkland and Gunn Island. The **Mercury Tug XVI – Vessel MMSI (AIS) – 316005489** will be onsite to assist with positioning the derrick barge.

Works will occur 24-hours per day.

VHF channels to be monitored include:

Channel 16 for the Canadian Coast Guard – Emergency, Channel 74 for the Canadian Coast Guard.

- Channel 69 for the marine contractor (FRPD) – In-river test program & Supplemental test dredge
- Channel 09 for the marine contract (Foundex) – Ladner Reach Geotechnical

Radio the Tugboat SEA IMP IX (Catherwood) tug if any tug assistance is required when navigating through the work area.

Special Requests

Mariners are advised to avoid the geotechnical staging area, **navigate via the south navigation channel detour (See Figure 3)**

NAVWARN (In-River Test Section):

ID NW-P-1636-25

Date 2025-11-12 15:50 UTC To 2025-11-23 02:00 UTC

Status Published

Title Marine Works

Cancel NW-P-1589-25

Area Fraser River

Category Dredging Operations

Description Rip rap removal and dredging off the Rice Mills vicinity of 49 07.470N 123 04.497W

Hours of operation, Monday to Saturday 1400 UTC until 0200 UTC until Nov 22nd.

Sea Imp 8 an Salish Surveyor will monitor VHF Ch 16 and 74

Minimum wake.

Position 49° 07.470'N 123° 04.497'W
