## Fraser River Tunnel Project

### DAILY NAVIGATION NOTIFICATION

**December 16, 2025**

This Daily Notification provides an update on the status of geotechnical investigation works for the Fraser River Tunnel Project. These daily updates are a supplement to the weekly NAVWARN which should be referred to for further details of the project. Figures are for illustrative purposes only and not to be referenced for navigation purposes.

#### Summary of Activities:

##### **In-River Test Section (Figure 1):**

Today's activities include geotechnical testing using the FRPD Rupert scow barge, the FRPD GE6 spudded/Derrick barge – **Vessel MMSI (AIS) – 316058929** will be holding the position of the scow barge. The work area is in the main river channels north administrative safety zone. Near the CanFisCo property (13140 Rice Mill Road).

Works will occur between **0700 hrs and 1900 hrs.**

Tugboat Sea Imp VIII – **Vessel MMSI (AIS) – 316009165** will be available **during working hours** only to assist transiting vessels – upon request from the Pilots.

##### **Supplemental Test Dredge (Figure 2):**

Bathymetric Surveys will be conducted in the Test Dredge area from the FRPD survey boat 'Salish Surveyor' – **Vessel MMSI (AIS) - 316044605**

Works will occur between **0700 hrs and 1900 hrs.**

##### **Deas Slough Bridge Inspection:**

Hydra Marine will be conducting structural investigations on the substructure of the Deas Slough Bridge. This includes the bridges North abutment, both piers, and their piles. Works will be undertaken from the boat, and underwater works will be done by divers.

Works will occur between **0700 hrs and 2200 hrs.**
