Fraser River Tunnel Project

DAILY NAVIGATION NOTIFICATION

February 10, 2026

This Daily Notification provides an update on the status of geotechnical investigation works for the Fraser River Tunnel Project. These daily updates are a supplement to the weekly NAVWARN which should be referred to for further details of the project. Figures are for illustrative purposes only and not to be referenced for navigation purposes.

Summary of Activities:

In-River Test Section (Figure 1-2):

- Today's activities include pile installation using the FRPD **D.REID** Derrick Crane Barge – **Vessel MMSI (AIS) – 316058931** and the FRPD 12 Scow Barge (Material Supply Barge). The work area is in the main river channels north administrative safety zone. Near the CanFisCo property (13140 Rice Mill Road). VHF Channel 81-Alpha for the marine contractor (FRPD) – In-river test program.

Works will occur between **0700 hrs and 1900 hrs**.

Tugboat **Seymour Crown** – **Vessel MMSI (AIS) – 316016663** will be available **during working hours** only to assist transiting vessels – upon request from the Pilots.

Note the positioning of the Derrick barge anchors shown in Figure 3. Marked onsite with lit Can buoys.

Geotechnical Test CPT (Figure 3):

- Cone Penetration Testing will occur from the FRPD GE 6 (McKenzie) Derrick Barge – **Vessel MMSI (AIS) – 316058929 inside of the North Navigation Channel**. VHF Channel 72 for the marine contractor (FRPD) – Geotechnical Test CPT. A Modified South Navigation Detour is in effect until February 10 at 23:59.

Works will occur between **24-hours per day until completion**.
