

## Fraser River Tunnel Project

### DAILY NAVIGATION NOTIFICATION

**February 20, 2026**

This Daily Notification provides an update on the status of geotechnical investigation works for the Fraser River Tunnel Project. These daily updates are a supplement to the weekly NAVWARN which should be referred to for further details of the project. Figures are for illustrative purposes only and not to be referenced for navigation purposes.

**Navigation Channel Status:** Modified South Channel Detour – Slow Bell Required

#### Summary of Activities:

##### **In-River Test Section (Figure 1-2):**

Today's activities include pile installation using the FRPD **D.REID** Derrick Crane Barge – **Vessel MMSI (AIS) – 316058931** and the FRPD 12 Scow Barge (Material Supply Barge). The work area is in the main river channels north administrative safety zone. Near the CanFisCo property (13140 Rice Mill Road). VHF Channel 81-Alpha for the marine contractor (FRPD) – In-river test program.

Works will occur between **0700 hrs and 1900 hrs**.

Tugboat **Seymour Crown** – **Vessel MMSI (AIS) – 316016663** will be available **during working hours** only to assist transiting vessels – upon request from the Pilots.

**Note the positioning of the Derrick barge anchors shown in Figure 3. Marked onsite with lit Can buoys.**

##### **Test Dredge Pit Infill (Figure 3-4):**

Infilling the remainder of the test dredge pit will occur today from the FRPD McKenzie Derrick Crane Barge – **Vessel MMSI (AIS) – 316058929**. The work area is in the navigation channel. A Modified South Channel Detour is in place for these works. VHF Channel 72 for the marine contractor (FRPD) – Test Dredge Infill.

Works will occur between **0700 hrs and 1900 hrs**. **Outside of these work hours, the marine equipment will be staged outside of the channel.**
