

Fraser River Tunnel Project

DAILY NAVIGATION NOTIFICATION

February 26, 2026

This Daily Notification provides an update on the status of geotechnical investigation works for the Fraser River Tunnel Project. These daily updates are a supplement to the weekly NAVWARN which should be referred to for further details of the project. Figures are for illustrative purposes only and not to be referenced for navigation purposes.

Navigation Channel Status: Modified South Channel Detour – Slow Bell Required

Summary of Activities:

In-River Test Section (Figure 1-2):

Today's activities include preparing the FRPD **D.REID** Derrick Crane Barge – **Vessel MMSI (AIS) – 316058931** to demobilize from site. The work area is in the main river channels north administrative safety zone. Near the CanFisCo property (13140 Rice Mill Road). VHF Channel 81-Alpha for the marine contractor (FRPD) – In-river test program.

Works will occur between **0700 hrs and 1900 hrs.**

Tugboat **Seymour Crown** – **Vessel MMSI (AIS) – 316016663** will be available **during working hours** only to assist transiting vessels – upon request from the Pilots.

Note the positioning of the Derrick barge anchors shown in Figure 3. Marked onsite with lit Can buoys.

Test Dredge Pit Infill (Figure 3-4):

Today's activities include placing sand in the test dredge pit, from the FRPD McKenzie Derrick Crane Barge – **Vessel MMSI (AIS) – 316058929**. The main navigation channel is in use. **A South Modified Detour Channel is in effect.** VHF Channel 69 for the marine contractor (FRPD) – Test Dredge Infill.

Works will occur between **0700 hrs and 1900 hrs.**
