

Fraser River Tunnel Project

DAILY NAVIGATION NOTIFICATION

February 27, 2026

This Daily Notification provides an update on the status of geotechnical investigation works for the Fraser River Tunnel Project. These daily updates are a supplement to the weekly NAVWARN which should be referred to for further details of the project. Figures are for illustrative purposes only and not to be referenced for navigation purposes.

Navigation Channel Status: Main Navigation Channel Open – No Restriction

Summary of Activities:

In-River Test Section:

Today's activities include placing scour protection (rip-rap) over the trial separation wall, which is embedded into the riverbed. Equipment includes the FRPD McKenzie Derrick Crane Barge – **Vessel MMSI (AIS) – 316058929**. The work area is in the main river channels north administrative safety zone, near the CanFisCo property (13140 Rice Mill Road). VHF Channel 69 for the marine contractor (FRPD) – In-river test program.

FRPD **D.REID** Derrick Crane Barge – **Vessel MMSI (AIS) – 316058931** will demobilize from site today.

Works will occur between **0700 hrs and 1900 hrs**.

Tugboat **Seymour Crown** – **Vessel MMSI (AIS) – 316016663** will be available **during working hours** only to assist transiting vessels – upon request from the Pilots.

Test Dredge Pit Infill:

Activity is completed.
