

Fraser River Tunnel Project

Intermittent overnight lane reductions for access road construction

Late July to November 2026

As part of ongoing preparations for construction of the new toll-free, eight-lane tunnel to replace the existing George Massey Tunnel, intermittent overnight single-lane reductions will be in place at the locations noted below. This work will support the creation of access and egress roads to construction sites, helping ensure the safe and efficient movement of materials while reducing traffic in more congested areas.

- **Deas Island (blue):** Work will begin as soon as early August and continue for approximately one month
- **Delta (pink):** Work will begin as soon as early August and continue for approximately one month, then resume in late summer for approximately one month
- **Richmond (orange):** Work will begin as early as late July for approximately one month, and resume in September for approximately one month
