

Fraser River Tunnel Project

Delta Site Preparation and Temporary Safety Closure of Millennium Trail

September 2026

Updated September 23, 2026

To ensure public safety, **the 150-metre section of Millennium Trail identified in yellow on the map will remain closed into the fall** while the following construction activities continue within the work area east of Highway 99:

- Utility works
- Tree removal near the shoreline
- Site development (remaining fill and grading at the north end of the work site)
- Construction of the trestle bridge ramp
- Construction of a small access bridge south of River Road to connect with the new access roads being built within the farmland east of Highway 99

To complete this work, heavy equipment will operate within the purple-shaded area on the map below. To reduce idling near residences on River Road, crews will utilize the work area as much as possible and a temporary staging area will be located on 60 Ave., indicated in orange on the map. Nearby residents can expect increased truck traffic on local roads.

Parking will be restricted near the project area, and temporary fencing will be installed at both ends of the closure area. We appreciate your patience and apologize for any inconvenience.

What to Expect

	Timing > The 24/7 trail closure will remain in place <u>into the fall</u>		Hours of Work > Monday – Saturday: Up to 24 hours a day > Occasional work on Sundays may be required > Where feasible, noisier activities will be scheduled during the day
	Pedestrian & Bicycle Traffic > Millennium Trail will be closed for 150m on either side of Hwy 99 > Trail users will not be able to cross Highway 99 at this juncture		Impacts/Interruptions > Noise and dust from heavy equipment (efforts will be made to limit impacts as much as possible) > When required, lights will be directed toward the project site > Increased truck traffic on nearby roads and occasional truck staging on 60th Ave

Construction of the temporary trestle bridge is expected to begin in early October. More information will be provided in advance.

Millennium Trail: Looking Forward

We recognize the trail's significance to the community and are working to maintain access whenever possible. To keep the trail open during construction, it may be re-aligned for periods and re-surfaced with temporary materials. When required, traffic control personnel will be on site to assist pedestrians and cyclists.
